QUESTION OF FUEL

For the City Water Works Discussed by Trades Assembly,

ANOTHER TEST WAS DEMANDED.

AND THE LABOR LEGISLATORS CLAIM IT WILL BE PROVEN THAT COAL WILL BE FOUND MORE PROFITABLE IN EVERY RESPECT THAN GAS—THE GRIEVANCE OF THE MUSICIANS TO BE RECONSIDERED.

The Ohio Valley Trades and Labor Assembly had its regular meeting yesterday. There was a fair attendance but no very important business was transacted.

The only credential received was that of H. E. Jones, from the Belmont Assembly, and he was accordingly obligated.

It was reported that the boycotts were still on certain cigar and tobacco firms, and some musicians.

A reconsideration of the musicians' case was granted, and the matter referred back to the arbitration committee.

The finance committee reported a balance on hand, September 10, of \$102.20.

The question of coal vs. gas at the city water works, resulted in delegates from the coal miners' quoting statistics to show that the city would find it cheaper to burn coal. Their regular committee for this purpose had drawn up resolutions in refutation of the arguments advanced by the water board for the use of gas. It was cited that only three of the six boilers figured in the tests made, and it was stated also that the consumption of home-produced coal would be of greater benefit to the city than the purchase of gas from a foreign corporation. The resolutions concluded with the following, which was adopted:

Resolved, That it is the sense of this assembly that the city water board be requested to have a test made with coal, by disinterested parties, in order that it may be demonstrated to the satisfaction of the tax payers of Wheeling, whether gas or coal is the cheapest fuel with which to operate the city water works. The discussion on the resolutions was all in their favor, and they were adopted unanimously. Until the adjournment at 3:40 o'clock, the assembly discussed matters not of public interest.

JOHN RITZ LODGE.

The recently organized puddlers union at Benwood, composed of the puddlers in the Benwood plant of the Wheeling steel works, is called the John Ritz lodge of puddlers. They chose this name in honor of Mr. Ritz, of North Wheeling, a prominent union puddler, to whose efforts is largely due their organization.

WORSHIP CONDUCTED

In the English Lutheran Church for the First Time in Months.

The congregation of the English Lutheran church worshipped in the edifice on Sixteenth street yesterday for the first time since the repairs began. The services were held in the Sunday school room, the auditorium not being yet in order. The harvest home communion service was the means of attracting a very large congregation in the morning and nearly as many were present last night.

Rev. Samuel Schwarz, the pastor, delivered two splendid discourses. Worship has been conducted at the Odd Fellows' hall for several months, and the congregation was glad to get back to the church. The improvements when completed will make the church one of the most creditable in appearance in Wheeling.

HIS TWENTY-SIXTH.

Col. Robert White Lectured at Martin's Ferry Last Evening in Reply to Hop Ingersoll.

Col. Robert White pleased a large audience at the Opera house in Martin's Ferry with his famous lecture, "And the Foundation Still Stands Fast." It is in reply to Col. Bob Ingersoll's lecture delivered some time since in this city. Col. White said it was his twenty-sixth lecture on the subject. Last night he spoke for one hour and fifteen minutes. The Opera house was well filled.

LARGE CROWDS.

The Woman's Mission Closed Yesterday. The Men's Occur This Week.

The Woman's Mission closed yesterday afternoon with a sermon on "Perseverance" and the renewal of the baptismal vows. The renewal of the baptismal vows occurs at the close of every mission and consists in the renewing of the promises made in baptism, and the papal benediction is the blessing of the pontiff, given by one of the priests.

Rev. Father Stanton preached yesterday, having for his subject, "In Differentism."

The services this week will be for men only. And a feature of the evening services will be the congregational singing of men. The attendance this week will be large. It is estimated that the meetings will more than average 1,000 persons.

Applauds for Miss Nicol.

Here is what the Pittsburgh Dispatch says about Miss Grace Nicol, of this city, anent the horse show:

The audience gave its first real noisy outburst when the winner of the high school class of horses was announced. Miss Grace Nicol, of Wheeling, won after a hard battle. It was her first prize, though she had competed several times. Her horse, Domino, owned by H. S. McClure, of Wheeling, did some wonderful fancy stepping under the clever hand of Miss Nicol, and when the blue ribbon finally went to her the audience refused to sit still. The little West Virginia girl, who divided honors with Mrs. Beach at the show, was applauded until she disappeared into the stables. W. H. H. Riddle, of Butler, made a gallant fight against the young lady, but the big chestnut Chester was not feeling well and got fourth place. Ralph Baggeley's Puritan, a fine gray gelding, took second place, and Dr. W. S. Huseilton's brown gelding, Chieftain, took third.

Blackie's Artistic Knife.

The best knife in the world for cuts, bruises, sores, ulcers, salt rheum, fever, corns, tetter, chapped hands, chilblains, and all skin eruptions, and positively cures piles, or no pay required. WANT OUR MONEY.

In Everything Else Europeans Regard Us With Much Contempt.

A special telegram from New York city to the Pittsburgh Dispatch says that Nathan B. Scott, member of the Republican national committee from West Virginia, thinks that Americans make a mistake in going abroad and spending money in countries the people of which have a contempt for this republic and its citizens. He arrived recently from a long European trip, and at the Fifth Avenue Hotel this afternoon gave his impressions of what he heard and saw.

"Everything American," he said, "in Europe is treated with more or less contempt. They sneer at us, and, no doubt, laugh in their sleeves at the way we come to their country and spend money foolishly. My wife and I together never bought \$50 worth of goods in Europe after we discovered the real feeling against Americans. They think we are a race of braggards, and if I had told them that in New York there were buildings twenty stories high, with seven or eight elevators running all the time, they would have considered me a huge fabricator. They consider us in every light but the true one. Naturally, they denounce the Dingley tariff, because under the Wilson free trade law they sent their goods here and kept many of our working people idle.

"The Germans, for instance, profited greatly by the Wilson bill. It gave a boom to their industries, and many of the small farmers sold their farms and went to work in the factories in the towns, where the demand for labor was great. Now things are different, and the small farmers who sold and sought the towns have little to do. Our working people are reaping the benefits of protection and the bitterness against our tariff increases in Europe. They may enact retaliatory tariff laws, but I guess we can stand it.

"Something should be done to stop Americans from spending so much money in Europe every summer. They appreciate us over there only to fleece us scientifically."

SCARCITY OF WATER.

Work in the Southwest Oil Field is Being Held Back Largely.

On account of the long continued drought, which has had an uninterrupted career for the past seven weeks, work in the Southwest oil fields has been seriously impeded and in some districts entirely suspended, the water being exhausted. Yesterday afternoon Mr. James B. McKee, of this city, was called to Moundville through telephone message, which stated that operations by the Griffith Oil Company in the Rogerson field had been cut short by the cutting off of the supply of water. Mr. McKee expected to be able to make arrangements for a temporary supply of water.

The same situation exists in the other districts of the Southwest fields, particularly at Elk Fork, Waverly, Benwood, Cameron and in Wood county. The drought is one of the longest on record and farmers and oil men are hoping it will soon come to a conclusion through the medium of rain, heavy and long continued.

THE RIVER.

Capt. James H. Williams, a veteran riverman, died Thursday at his home in Covington, aged 71 years. He was connected with river affairs for over forty years. James F. and Bradford Williams, two well-known Ohio river pilots, are sons who survive him.

Capt. Isaac C. Woodward, of Brownsville, president of the Pittsburgh, Brownsville & Geneva packet line, who has been critically ill from paralysis since Monday, was recovered Friday to be somewhat improved.

The clearing of the river of snags, and so forth will be done hereafter by the government steamer Edna, assisted by a derrick boat, instead of the snag boat E. A. Woodruff. Capt. Christian, of the Woodruff, will command. The Woodruff is repairing lock No. 7.

River Telegrams.

OIL CITY—River 1 inch and stationary. Weather clear and pleasant.

KRAUS BROS.,

WHEELING'S FOREMOST CLOTHIERS,

STRICTLY ONE PRICE.

1319 MARKET STREET.

CLOTHING—D. GUNDLING & CO.

To Cover Your Nakedness

Is one thing; to be properly dressed is quite another.

How can you be satisfied to wear ordinary ready-made clothes or cheap merchant tailored ones, when you buy bearing this label

made of the very best materials, by expert custom tailors, after the most fashionable models, at about the same price as the former and a great deal less than the latter? Our profit on Stein-Bloch Clothes is not as large as on other makes. They are better and consequently cost more. But we make more in the end, because we sell so much of it; they need no further advertising to a customer who has once worn them.

Test the truth of our assertions. You risk nothing. Your money back if you want it, proves it.

D. Gundling & Co.

STAR CLOTHIERS,

34 AND 36 TWELFTH STREET.

COUCHES—ALEXANDER FREW.
